

2026 Heritage Club Scholarship Winners

The Canada Post Heritage Club is pleased to announce the winners of the 2026 Heritage Club Scholarship Program!

Once again, we were delighted by the interest in the program and the quality of the applicants. This year, we received 24 applications representing 13 chapters across the country.

Our judges had a very difficult task choosing just three winners. The applicants demonstrated a remarkable combination of community involvement, academic achievement and a genuine desire to continue their education and make a difference. In fact, less than eight points separated the top 10 applicants, making the final decision especially challenging.

After careful consideration and deliberation, the 2026 Heritage Club Scholarship winners are:

Madison Wong — ON / Simcoe Chapter

Reed Bursey — NL / Terra Nova Chapter

Alexis Mathieu — QC / Laurentides-Lanaudière Chapter

Congratulations, Madison, Reed and Alexis! We are proud to support you as you continue your education and pursue your goals.

A Special Thank You...

This program would not be possible without the dedication of our judging committee. Our judges generously give up valuable summer hours to carefully review and score each application, and their time and expertise are greatly appreciated.

With so many impressive applicants, choosing just three winners was certainly not easy — but it was wonderful to see the accomplishments, community spirit and future goals of so many young people connected to the Heritage Club.

Congratulations to all our applicants, for a remarkable secondary school effort, and especially to our three 2026 scholarship winners! We are proud to support the next generation of learners through the Heritage Club Scholarship Program.

Reed Bursey (Terra Nova chapter, Newfoundland and Labrador)

Reed Bursey is a recent graduate of Clarendville High School who will attend Memorial University of Newfoundland this fall to pursue a Bachelor of Science, with the goal of eventually becoming a pharmacist and serving rural communities. Reed is an exceptional student, graduating with a 99% average and earning his school's AAA Award for three consecutive years, recognizing attendance, attitude and academic achievement.

Reed's commitment to his community is just as impressive as his academic record. He has held several leadership roles, including Student Council Secretary, School Council representative, Eco-STEM Team member and representative on community advisory committees. He has also volunteered extensively with Port Blandford Recreation, Kids Eat Smart, community events and youth programs.

His reference describes Reed as a respectful, organized and dependable young leader who consistently leads by example. His own experiences have taught him the importance of resilience, community and giving back — values he hopes to carry with him as he pursues his education and future career. We congratulate Reed on receiving a 2026 Heritage Club Scholarship and wish him every success at Memorial University.

Alexis Mathieu (Laurentides-Lanaudière Chapter, Quebec)

Alexis Mathieu is a recent graduate of Collège de l'Assomption who will continue his studies in the Natural Sciences program at Collège André-Grasset, with a long-term goal of pursuing medicine and becoming a neurosurgeon. An excellent student with a 93.5% average, Alexis has demonstrated an impressive ability to balance academics with a demanding schedule of sports, leadership and community involvement.

A dedicated athlete, Alexis has played competitive hockey for the Sphinx Hockey program and has also participated in football, flag football and track and field. He has twice been selected as an assistant captain in hockey and was named defensive captain in flag football. He also participated in his school's leadership program, mentoring younger students and helping create a welcoming environment for new students.

Alexis's reference describes him as a positive and determined young leader who consistently demonstrates exceptional time management and commitment. Despite an extremely busy final year, he maintained his academic performance while taking on new challenges and responsibilities.

We congratulate Alexis on receiving a 2026 Heritage Club Scholarship and wish him every success as he begins his studies in the sciences and works toward his goal of a career in medicine.

Madison Wong (Simcoe Chapter, Ontario)

Madison Wong is a recent graduate of St. Theresa of Lisieux Catholic High School who will be attending the University of Waterloo this fall to pursue an Honours degree in Systems Design Engineering. A high-achieving student with a 97% average, Madison has balanced her academics with employment, extracurricular activities and extensive community service.

Her commitment to helping others is particularly evident through her volunteer work at Sunnybrook Health Sciences Centre, where she has contributed more than 200 hours supporting patients, visitors and veterans. Her supervisor describes Madison as dependable, resourceful, hardworking and empathetic.

Madison is also a Gold Award recipient in the Duke of Edinburgh program, has nine years of competitive dance experience and has taken part in STEM-focused activities. Her experiences have strengthened her belief that education and innovation can create opportunities and improve people's lives. We congratulate Madison on receiving a 2026 Heritage Club Scholarship and wish her every success in her engineering studies and future endeavours.
